Determining Your Rates

Claims-Made

Rates for a claims-made policy increase automatically over a number of years to reflect accumulating risk, until they reach a maximum or "maturity." **If you are newly licensed or you are currently insured under an occurrence policy**, you would pay the premium appropriate for your class listed under the "Year 1" column in the chart below. Please note this premium on Page 1 of the application where indicated. Include a mandatory \$3.00 HPSO Purchasing Group Membership Fee. You do not need to enter a Retro Date because it will be the same as your effective date.

If you have been insured under a claims-made policy and wish to continue your coverage without interruption, you must include a copy of your current Declarations Page and a copy of your claim loss data from your current insurance carrier, with this application. Please enter the Retro Date of your current policy (found on the Declarations Page), and the requested effective date of your new policy, on this application where indicated. To determine the appropriate rate, first note the number of years that have lapsed between the dates you provided on Page 1. Fractional years of six months or more are rounded UP; less than six months rounded to the next lower year Once you have calculated the correct number of years, add 1 to this total to represent the current year, and this number is the basis for your coverage. If the total is 5 years or more, you would pay the "Mature" rate listed on the chart below. Totals of less than 5 years pay the appropriate premium listed in the matching column. Please note the total premium you have selected on Page 2 of this application where indicated.

Prior Acts

If you do not require Prior Acts coverage, please check the appropriate box under the rates on page 1 of this application. If you have any questions or need help with this application, or if you would like information on Prior Acts coverage for services performed before the effective date of this policy, please call 1-866-216-8080 for assistance.

AN IMPORTANT NOTICE ABOUT CLAIMS-MADE COVERAGE- PLEASE READ

If you are currently insured under a claims-made policy, it is important that you continue your coverage without interruption when moving to a new policy. By providing NSO with the Retroactive Date or "Retro Date" of your expiring policy, upon approval of your application, your new policy will provide you with continuous coverage. This means that any claim that might occur on or after your Retro Date will be covered under your new policy.

If you do not provide your current Retro Date on this application, and do not elect to purchase Extended Reporting Period coverage from your former insurer ("tail coverage"), your previous claims-made coverage will lapse. It will no longer respond to any claims that may arise for that original policy period -- and neither will your new policy. This could leave you completely unprotected or "bare".

Claims-made Coverage

Claims-made coverage was introduced as an alternative form of coverage. Under a claims-made policy, coverage is provided for claims made against the policyholder and reported to the insurance company while the policy remains in force and during any applicable extended reporting period.

In the first few years, each time a claims-made policy is renewed, the premium increases automatically to take into account the likelihood of claims being reported from the current and previous policy periods. Generally, claims-made coverage is offered on an annual basis.

You may want to consider two options in the event you change from a claims-made policy with one insurance company to another - or your claims-made policy is cancelled, non-renewed or replaced by an occurrence policy.

Extended Reporting Period Endorsement

The first option, known as an Extended Reporting Period Endorsement, allows you to report a claim to your prior insurance company after the policy has ended. It provides protection for covered claims that arise out of incidents that occurred during the policy period, up to the date the policy ended.

You must pay an additional premium for Extended Reporting Period coverage-possibly as much as two or more times your current year's premium. Some insurance companies offer this endorsement at no charge - if certain special policy conditions are met by the policyholder.

Prior Acts Coverage

The second option is known as Prior Acts Coverage. Many insurance companies - and those plans offered through HPSO -- offer this option to protect insureds who had claims-made coverage immediately prior to the current policy period, but with a different insurance company - and who did not purchase an Extended Reporting Period Endorsement from that company when the policy ended.

Prior Acts Coverage protects against claims arising out of incidents that happened before the inception or effective date of a new policy. Some companies may charge an additional premium for this coverage

Occurrence Coverage

An occurrence policy provides coverage for an injury or damage that takes place during the policy period, regardless of when the claim is reported. Thus, an occurrence policy provides long-term protection for any covered claim that may arise at any time in the future - up to the limits of the policy in force at the time of the incident that led to the claim.
