

PROTECTING your NURSING LICENSE

47x

According to the National Practitioner Data Bank, nursing professionals were on average **47 TIMES MORE** likely to be involved in an adverse licensing action than a medical malpractice payment in 2020.* Understanding the process and how to protect your license is critical to maintaining your career.

License Defense vs. Professional Liability. What's the difference?

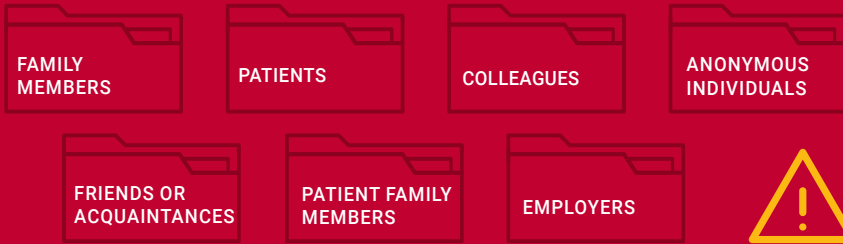

License Protection coverage is activated when a complaint is filed against your license. License Protection is typically not included within employer provided professional liability insurance.

LICENSE DEFENSE	PROFESSIONAL LIABILITY
> Inquiry by the State Board of Nursing, arising from a complaint	> Civil lawsuit arising from a patient's malpractice claim
> Allegations can be related to clinical practice and/or may be of a nonclinical nature (i.e., substance abuse, unprofessional behavior, or billing fraud)	> Allegations are related to clinical practice and professional responsibilities
> The State Board of Nursing can suspend or revoke a license	> The civil justice system cannot suspend or revoke your license to practice

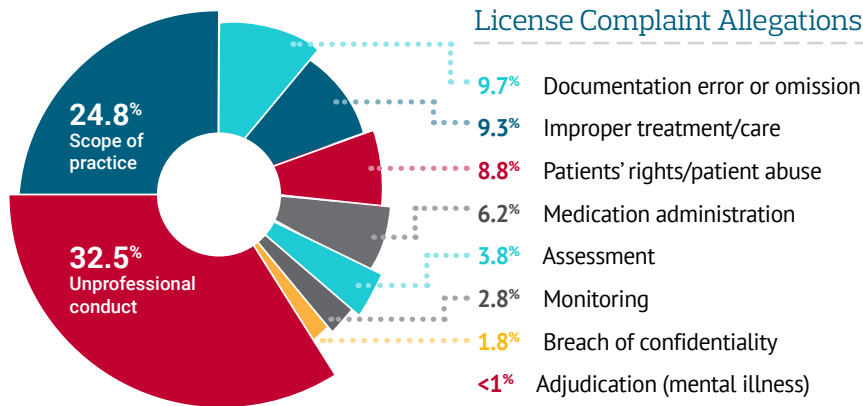

State Board of Nursing Responsibilities

- Provides oversight of nursing practices
- Charged with protecting the public
- Enforces laws governing nursing practice
- Make decisions regarding discipline
- Issues nursing licenses
